

fla·vor: \flā'vər\ n

1. the blend of taste and smell sensations evoked by a substance in the mouth
2. the predominant quality of something; distinctive nature
3. **a Colorado-based catering & event planning company**

flavor catering + event planning is a modern, upscale catering and event planning company whose mission is to create and execute unique and high-quality food and wine events for all of its customers.

flavor was conceived in 2001, in response to requests from family and friends to help them to celebrate special occasions in their lives – holiday gatherings, weddings, or the birth of a new baby. each of them knew that they wanted a delicious, unique menu, but often they also needed help planning and executing their event; from envisioning a theme and creating the décor, to selecting the music and designing invitations. after continuing to receive positive feedback and 100% of referrals through word-of-mouth, **flavor** has expanded into a full-time catering and event planning company, specializing in corporate meetings but equally adept at handling everything from more intimate gatherings of 12 guests to weddings for 150. special event offerings include facilitated wine tastings and personalized wine training sessions.

flavor reflects our passion for celebrating life through the constant pursuit of exceptional food and wine, showcased in a customized setting and designed to elevate the event experience for you and your guests beyond your highest expectations.
